

RESEARCH STUDY: BALANCE AND FALLS IN PARKINSON'S DISEASE

Who: People \geq age 40 with Parkinson's disease

What: Research study on body motion and muscle activity during standing and walking balance.

Where: Neuromechanics Balance Laboratory at Emory Rehabilitation Hospital (1441 Clifton Road)

Time: \sim 3 hours

We are developing better ways to predict **fall risk** in people with Parkinson's disease. Participants will be assessed with our moving platform and record their falls for 1 year afterwards. Compensation is available (\$50).
